

### Mount Your Missouri 8 Ball or 9 Ball Plaques

1

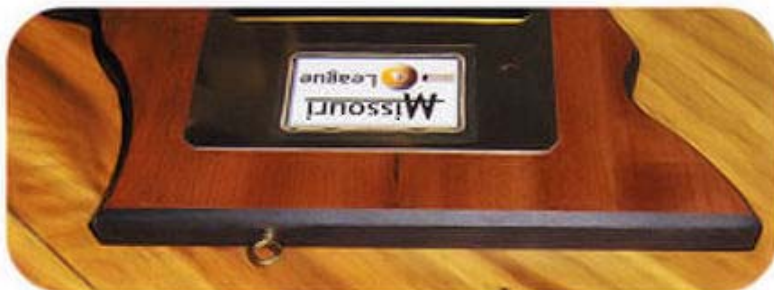

3

2

4

5

6

1. Normally mounted by hanging on a nail in the slot on back.
2. Mount cup hooks 11" to 13" apart. on the wood strip you choose to mount plaques on.
3. Steelworks Systems S3 hook assortment from Lowes. (About \$4)
4. Screw an eye hook near front edge 2" from right edge (As shown)
5. Plaques mounted on a strip
6. Add rows as needed.

#### Notes:

- o Use a 1/16" drill bit for cup hooks and eyelets. Insert a small toothpick in hole if necessary to prevent hardwood from splitting from too small of a hole.
- o Stain wood to match before inserting hooks.
- o If you are hanging a different style plaque, hang on a nail first to find center.
- o Your plaques won't fall off the wall if disturbed. Close eye on cup hook when done if you choose to.
- o You can place team photos on back of plaques if you choose to.
